UNCART WEEKLY REVIEW

27 November - 8 December 1961

1. Martinez and Contacts:

a. A trip report of [] visit to Lockheed, Edwards AFB, and Minneapolis-Hannemann, 27-30 November is being forwarded to the DD/P. Topics covered include: semi metal fatigue, telemetry security, IC flight test program, runway barriers and preliminary results of sonic boom flight tests.

b. In conjunction with a review of fuels problems and delivery schedules meeting attended [] by [] suggested that steps be taken by Colonel Geary to visit Castle AFB to check on KC-135 tanker problems associated with the use of FNA-223 fuel, particularly in regard to fuel tanks, feed lines, seals compatibility, etc., [] also recommended that programming action commence concerning delivery of fuel to advance bases of KC-135 tankers and problems associated with the fuel facilities at such bases.

c. On 29 November, the flight testing of the Eastman-Kodak UNCART camera commenced at Burbank. Results from a 4 December flight were examined by the DD/P on 6 December.

d. On 1 December Mr. Kiefer visited Perkin-Elmer for a status report on the UNCART camera. Mr. Kiefer will report his comments concerning this trip to the DD/P.

e. On 1 December the DD/P's letter concerning the FOM situation was delivered to []

f. On 5 December [] and Mr. Parangosky visited FOM, Florida. Mr. Parangosky delivered a copy of the DD/P's letter, mentioned in 1a above, to [] All concerned at West Palm Beach feel that the letter should have beneficial results in that FOM top management has been put on the spot to redouble its support to the J-58 engine program. [] remained at FOM, 5-7 December, and will submit a detailed report on his visit.
